Bonus Program

Zanza has developed a multi-level bonus system tailored to different types of players and different stages of their casino journey. There is no one-size-fits-all approach: each player gets what is most relevant to them.

Welcome bonuses

New players receive a first deposit bonus of up to 150% plus free spins. For those who want to try the platform without making a deposit, free spins are available upon registration.

Deposit Streak

For players getting into the action, there is a series of deposit bonuses with increasing rewards. Each next step is more rewarding than the previous one

Weekly cashback

Protection against an unlucky week. The higher the turnover, the higher the cashback percentage. It is credited automatically every week.

Motivational Cashback

If the balance drops to zero, Zanza returns part of the losses to the real money account with no wagering requirements. It works as a second chance.

Crypto Boost +5%

For any deposit made via a crypto wallet, players get an extra 5% added to their balance with no wagering requirements.

Tasks with Rewards

Verify your email, download the app, subscribe to social media – each action brings real free spins.

VIP Program

Players with high turnover receive increased cashback (up to 30%) and personalized terms.

Zanza Network Referral Program

Zanza Network is a three-level network.
You invite people, and they invite others.
You earn from every level.

Level 1
people invited by you

15% NGR

Level 2
people invited by them

8% NGR

Level 3
third circle of the network

5% NGR

NGR is the casino's net revenue from a player. Casino winnings minus all bonuses and payouts. You receive your percentage from this amount.
The more active your network plays, the higher your income.

How to Start Earning with the Referral Program

1 Register on Zanza and make at least one deposit

2 Get your referral link in your personal account

3 Share it – on social media, Telegram, your website, or blog

4 Earn from every level of the network for life

Payout Terms

No “save up first” or “wait a month.”
Earn it – withdraw it.

Calculation

Once a week

Minimum withdrawal threshold

None – you can withdraw any amount

Methods

USDT, Bitcoin, Ethereum, Visa, Mastercard
